## MESSAGE

I AM VERY HAPPY TO SAY THAT INSTITUTE OF ENGINEERING & TECHNOLOGY DR.RAMMANOHAR LOHIA AVADH UNIVERSITY AYODHYA IN COLLABORATION WITH SPOKEN TUTORIAL IIT BOMBAY IS CONDUCTIONG AN FDP ON "E-CONTENT CREATION FOR MOOCS & MOODLE" THE TOPIC IS VERY RELEVANT AND NEEDED AS THE FACULTY HAS TO TRANFORM THEM TO BE READY FOR ONLINE EDUCATION .I WISH ALL FACULTIES TO JOIN AND BENEFIT FROM THIS FDP.

### PROF.MANOJ DIXIT

#### VICE CHANCELLOR

In the globally changing scenario due to pandemic system is merely shifted on E-Teaching/online Teaching. The pandemic has significantly disrupted the higher education sector as well, which is a critical determinant of a country's economic future. This is a crucial time for the education sector. The pandemic has transformed the centuries-old, chalk-talk teaching model to one driven by technology. This disruption in the delivery of education is pushing policymakers to figure out how to drive engagement at scale while ensuring inclusive e-learning solutions and tackling the digital divide. A multi-pronged strategy is necessary to manage the crisis and build a resilient Indian education system in the long term.

### PROF.RAMAPATI MISHRA

#### DIRECTOR IET AYODHYA

Technology is a tool that can and should be effectively harnessed and utilized in the practice of education. E Content is naturally suited to distance learning and flexible learning, but can also be used in conjunction with face-to-face teaching, in which case the term Blended learning is commonly used. The E Content does not seem to replace the conventional classrooms with black boards but it seems to coexist with the already existing system.

### RAJEEV KUMAR

#### CONVENOR

We all know that our country is currently fighting the merciless corona-virus. Whoever is in the grip of this virus, has to fight for his life. Other countries of the world are also vulnerable to this deadly virus. For student interest, our responsibility as teachers increases. In this situation, the purpose of organizing this Faculty Development Program on "E-Content Generation" is to take education a step further by following social concerns about the help of leading intellectuals in e-education. As we are all connected with the field of education, so we have more responsibility. For the benefit of society and students, some such platforms should be designed so that students can get education at home through their teacher. All the institutions are teaching their students through e-learning platforms. Our education is meant to guide and motivate students to learn from online e-learning.
